

## Media Release

March 3, 2010

**Not too late to do 'The Reflection' <http://thereflection.vividas.com>**

Midway through Lent and thousands of people across Australia and beyond have taken up the challenge to do something special for Easter 2010.

'The Reflection' is three weeks into its seven-week Season, and response has been overwhelmingly positive for this initiative of the Australian Catholic Bishops' Conference.

Around 6000 "hits" were made to the site in the first two weeks, with families and parishes making special time in their busy routines to gather and undertake this innovative online exploration of the Scriptures.

It is not just Australian Catholics who have joined the prayer and discussion either. More than 20 countries across the globe have tuned in with big numbers from the USA, Canada, the UK and New Zealand.

Those who undertake the experience are finding the process rewarding:

*Thank you ..for this wonderful series. I am watching each week a number of times and I have found that I am hearing something different in both the readings and in the wonderful comments by all of the Bishops. All of this is taking me into a deeper level on my Lenten journey.*

*I'm very much enjoying participating in the Lenten journey with the Bishops and am grateful that they have taken the time to share their insights and learning with us.*

*It is great, very engaging; I did not want to stop it the first time so I had to go back through it. So professional. Everything was great.*

*I am a lapsed Catholic, but I am making a slow journey back to the Church..., I just now wanted to thank you for such a wonderful initiative – truly bringing the Word back to people like me who would have otherwise missed it due to no longer attending Church.*

If you have missed out on the first weeks – it is not too late!! All Sessions remain archived so you can join in, or revisit, at any time. Get online now:
