## **AUSTRALIA'S NO 1 LIBERAL ARTS COLLEGE TO HOST VIRTUAL OPEN DAY**

Prospective students considering Australia's leading liberal arts college are invited to tune into Campion's Virtual Open Day later this month.

All resources will be available from 10am AEST on Tuesday 28 September through Campion's website, including the college prospectus, course guides and on-demand presentations.

Campion president Dr Paul Morrissey will give a live lecture on the day, while our Student Recruitment Manager will be available via live-chat, phone and email to answer any questions about the college, campus life and our highly-rated degree.

Although a young tertiary college, Campion has gained an unparalleled reputation in a short time.

The Western Sydney-based institute yearly outranks every Australian university for undergraduate satisfaction in the national Student Experience Survey, achieving a satisfaction rate of 96.9% in the most recent report and making Campion's liberal arts course the number one Bachelor of Arts degree in the country.

The integrated degree is unique in Australia, taking a chronological approach to the study of Western Civilisation from antiquity to the present day, across four major disciplines: history, literature, philosophy and theology.

Additional units in Latin, Ancient Greek and mathematics are also available to interested students.

Those considering study in 2022 are encouraged to apply through Campion's Early Offer Scheme, to fast-track their enrolment and be automatically considered for a scholarship in their first year of study. Early Offer applications close Thursday 30 September.

Find out more and register at [www.campion.edu.au/virtual-open-day](http://www.campion.edu.au/virtual-open-day).

Everyone who signs up for Virtual Open Day updates will be entered into the draw to win 10x Penguin Classics from Campion's undergraduate program.
